

Night Rating

Transport Canada Minimum Requirement

Age:	17 Minimum. It is recommended that the student be at least 18
Medical Fitness:	Category 1 or 3

Experience: Minimum of 15 hours of flight training as per Transport Canada

15 hours of flight time, of which 10 must be conducted at night. 5 hours are dual instruction and 5 hours are solo. The remaining 5 hours will be instrument training done either during daylight or night.

You can combine a night rating with your commercial license course. The requirement of flight time is then reduced to 10 hours, of which 5 hours can be conducted as dual night instruction within the 100 hours of your commercial license and the remaining 5 night hours are to be done as solo flight time once you have successfully completed your commercial license. This is the most inexpensive way of achieving your night rating.

15 Hours Helicopter Robinson R 44	*\$9,900.00
	\$ 495.00GST
	\$10,395.00

If you have a fixed wing night rating you can complete 1 hour of dual and 1 hour of solo night for you rating.

**Alternate pricing is available when combination of machines is used.*

NB All flight time listed are Transport Canada minimums and CHTA makes no guarantee that the student will complete the program in the times stated. Some students may require additional training.

Prices in Canadian dollars and are subject to change without notice
